Erick Bravo - Software Developer

(909) 354-6272 | erickbravo120@gmail.com | GitHub | LinkedIn | Instagram

SUMMARY

Hello! My name is Erick Bravo and I am a self-motivated and enthusiastic software Developer from California. I am a **front-end developer** with many **backend** capabilities and have worked on high impact client projects which required effective and extensive direct communication with design teams and product management. I absolutely love putting in the time to learn and explore new tech if it means moving the team forward. Besides past client projects, I have revamped the Yosemite Community website which benefits 2000+ employees who live in Yosemite national park. My entire career has been so far fully remote. I have worked with teammates of all time zones, and I am eager to provide skillful contributions on a project of high demand and reward.

> *"I can not imagine where [the project] would be without Erick, nor would I like to imagine that reality.*
> *He has continued to be a key member of the team from the very beginning."*

- Brandon Benefield lead developer at Detroit Labs

SKILLS

JavaScript, Typescript, React, Express, PostgreSQL, GraphQL, Prisma, Node.js, Next.js, Gatsby, Contentful, GitHub, Jira, AWS S3, Agile

EXPERIENCE

Application Developer I - *Detroit Labs*   July 2021 - current
Detroit Labs is a consulting business in the tech space. Clients include: **Ford, GM, Dominos, Jimmy Johns, Volkswagen.**

- **React front-end developer** on the **Driveway.com** cart-flow. Driveway is a direct competitor to Carvana.
- **React/GraphQL full-stack developer** on Black Family Development, Inc project. This project aims to help evaluate mental health statuses and provide the necessary resources that save lives.
- Authored documentation to guide new Junior Developers and New Hires. This affected the entire organization's hiring process.

Website Formatter/Designer (Volunteer) - *Yosemite National Park Service*   April 2021 - Aug 2022
Yosemite National Park Service manages and protects the areas of Yosemite.

- Was responsible for a total and absolute revamp of the **yoscommunity.com** website to help portray the Yosemite National Park Service as a professional and inviting organization. This website is a valuable resource and informer for 2000+ employees of Yosemite National Park.
- Communicated with multiple supervisors and departments to understand how they wanted to be individually represented on the website. Created copy/illustrations on many occasions.

EDUCATION

App Academy - **Certificate of Completion**   July 2020 - Feb 2021
App Academy is a vigorous and extremely reputable coding bootcamp with a less than 3% acceptance rate. Students undergo 1000+ hours of coding, lecture, reading, and pair programming as the core curriculum.
